

COMPANY INFORMATION

Crystal Company is a major manufacturer of special safety and security glazing since 1995. By advanced production systems, different types of glass and high quality plastics are laminated to achieve safety or armored glazing with a minimum of thickness and weight, although performing high and excellent resistance against pressure, manual attack, ammunition, fragmentation, explosives and shockwaves.

The products have been tested by major testing institutes in Europe and further.

In 2010, our factory has removed to a new plant at Heinenoord, approx. 20km distanced from the centre and ports of Rotterdam, The Netherlands.

This plant strikes total 13.000 square meter, of which are 10.000 sq. meters buildings and 3.000 sq. meters open space.

We manufacture for the following industries and applications:
